

Mercury bearing waste is recycled  
at our EPA licenced premises.  
EPA Licence No. 10499

Date: 28th July 2014

Certificate No.: SAMPLE ONLY

The mercury waste is treated in  
a vacuum distillation unit. As with other  
wastes we treat, this ensures the best  
outcome for the environment and  
cleanest by-products.

# Certificate of Recycling Excellence

Type of Waste:

Lighting Waste

*This certificate is presented in recognition  
of environmentally sound practice by*
